

Algorithm Course Content

- Sorting algorithms (Counting sort, Quick Sort, Merge Sort)
- Activity Selection, Fractional Knapsack
- Matrix Chain Multiplication, 0-1 knapsack, Coin Change, Longest Common Subsequences, Longest Increasing subsequences
- Asymptotic Notations
- Spanning tree, Minimum Spanning Tree
- Prim's algorithm, Kruskal's algorithm
- Graph Traversal Algorithm(BFS, DFS)
- Dijkstra, Bellman ford
- Backtracking(N-Queen Problem)
