

### **Practice Problems List-12 (2D Arrays)**

1. Write a program in C to input a 2D array and print it.
2. Write a program in C for adding two matrices of the same size.
3. Write a program in C for the subtraction of two matrices.
4. Write a program in C to accept two matrices of the same size and check whether they are equal.
5. Write a program in C to print the element of the left diagonal of a matrix.
6. Write a program in C to find the sum of the left diagonals of a matrix.
7. Write a program in C to print only the diagonal elements of a matrix.
8. Write a C program to find the sum of each row and column of a matrix.
9. Write a C program to find the upper triangular matrix.
10. Write a C program to find a lower triangular matrix.
